

NAIL ENHANCEMENTS

We have 4 systems available to extend and assist in growing the nail. All systems are also available as an overlay on your natural nail giving additional strength that a gel polish cannot.

Acrylic (inc Gel Polish)

Acrylics are one of the oldest form of nail extension in the nail industry. This system is a mixture of liquid monomer and a powder polymer, which when combined forms a hard protective layer that is applied and sculptured over the natural nail or tip.

Extensions	£32.00
Wraps/Overlays	£30.00
2/3 Week Maintenance	£32.00

Fibreglass/Silk (inc Gel Polish)

This process involves cutting small pieces of fibre and placing them on the nail or tip, sealing them into position using a resin. This system is still very popular; however, it may be better suited for clients who may be sensitive to the chemicals used in the Acrylic process.

Extensions	£42.00
Wraps/Overlays	£40.00
2/3 Week Maintenance	£33.00

UV Hard Gel (inc Gel Polish)

UV Hard Gel is a mixture that is applied either on top of a nail extension, or directly onto the natural nail bed to strengthen the nail. The UV Gel is applied in very fine layers and is cured with a UV light. The finished result is glossy, hard-wearing but still flexible.

Extensions	£42.00
Wraps/Overlays	£40.00
2/3 Week Maintenance	£35.00

SNS/Dip Powder with/without Gel

SNS is a nail dipping system which is made from organic chemicals. It comes in a clear, natural and a range of colours. It can be used for nail extensions and over the natural nail to enhance and strengthen. SNS has vitamins and calcium within the product so it promotes healthy nail growth.

Extensions	£37.00
Wraps/Overlays	£32.00
2/3 Week Maintenance	£32.00
SNS/Dip Powder Recolour	£35.00
